REGIONALIZATION OF AGRICULTURAL CROPS AND LIVESTOCK BREEDS IN BULGARIA

(Extract From a Decree of the Ministerial Council and the Central Committee of the Bulgarian Communist Party, Dated 7 July 1955)

Izvestiya
Sofia, 12 Jul 55

The Ministerial Council and the Central Committee of the Bulgarian Communist Party decree:

1. To approve, on the basis of recommendations of the Ministry of Agriculture, the draft on regionalization of agricultural crops and breeds of livestock as shown in Appendixes I and II.
2. To instruct the State Planning Commission, the Ministry of Agriculture, and executive committees of okrug and okoliya people's councils to base their planning of agricultural expansion and land exploitation on the regionalization of agricultural crops and livestock breeds as shown in Appendixes I and II.
3. That the basis hereby approved for planning of agricultural crops and livestock breeds, as well as regionalization of land exploitation, be subject to more accurate definition and improvement, depending on further study of the soils and climatic conditions of individual regions, opportunities for better cultivation and fertilization of soils, availability of seed varieties, and other factors.
4. To instruct the Ministry of Agriculture and the Bulgarian Academy of Sciences, in coordination with the State Planning Commission, to present recommendations to the Ministerial Council by the end of 1955 on measures for further improving regionalization, embracing all agricultural crops and livestock, and to indicate the most suitable locations for industrial enterprises which process agricultural raw materials.
